First day at school  
School leaving and entrance exams  
Taking up a job  
Starting family

# Your first day at school

Why did you or your parents feel...

...worried?

...disappointed?

...sad?

...excited?

...proud?

...relieved?

# Possible answers

## My parents were worried...

- ...if I could fit in.
- ...if I'd have friends.
- ...about my grades.
- ...about my behaviour.
- ...that my teachers wouldn't be kind.
- ...that I wouldn't like studying.

# After taking the matura exam

You can go on studying.

Higher education is expensive, time-consuming, too demanding and stressful.

However, you have better opportunities to find a job. You can meet new people and become a well-educated person.

You can take up a job.

You'll probably earn little money, as you have no experience and you'll have to adapt to the work situation.

On the other hand, you can become independent sooner and have the chance to learn a trade.

- Advantages, disadvantages
- Your preference

# Situation: Getting married and starting a family at an early age

## Student A

Your English friend is telling you his/her plans for the future after finishing secondary school.

You don't agree and want to convince him/her to do something else.

## Student B

You are telling your friend you have decided to leave home and start a family after finishing secondary school.

You are sure that's the right decision because you want to live your life.
