

Global warming
Climate change
A globális felmelegedés és klímaváltozás

1. pollute → 2. hole in the ozone layer →
→ 3. UV rays → 4. average temperature

5. average temperature → 6. ice at the Poles →
→ 7. sea level → 8. floods

What would you do to prevent global warming if you had the political power?

- I would make people...
- I wouldn't let people...

Problems
We don't use environment-friendly forms of transport.
We burn fossil fuels.
We produce too much carbon dioxide.
We waste energy.
We don't use alternative sources of energy.
We cut down the rain forests.
We don't protect endangered species.
We bury rubbish in landfills.
